■■ PREPARTICIPATION PHYSICAL EVALUATION **HISTORY FORM**

(Note: This form is to be filled out by the patient and parent prior to seeing the physician. The physician should keep this form in the chart.)

Date of Exam					
Name Date of birth					
Sex Age Grade School Sport(s)					
Medicines and Allergies: Please list all of the prescription and over-the-count					
Do you have any allergies? ☐ Yes ☐ No If yes, please identify ☐ Pollens		c aller	gy below. ☐ Stinging Insects		
Explain "Yes" answers below. Circle questions you don't know the answe					
GENERAL QUESTIONS	Yes	No	MEDICAL QUESTIONS	Yes	No
1. Has a doctor ever denied or restricted your participation in sports for any reason?			26. Do you cough, wheeze, or have difficulty breathing during or after exercise?		
2. Do you have any ongoing medical conditions? If so, please identify below: o Asthma o Anemia o Diabetes o Infections			27. Have you ever used an inhaler or taken asthma medicine? 28. Is there anyone in your family who has asthma?	lacksquare	
Other:			29. Were you born without or are you missing a kidney, an eye, a testicle	╆	+
3. Have you ever spent the night in the hospital?			(males), your spleen, or any other organ?	₩	_
4. Have you ever had surgery?	Vo-	N.c.	30. Do you have groin pain or a painful bulge or hernia in the groin area?	$oldsymbol{\perp}$	
5. Have you ever passed out or nearly passed out DURING or	Yes	Νo	31. Have you had infectious mononucleosis (mono) within the last month?		
5. Have you ever passed out or nearly passed out DORING or AFTER exercise?			32. Do you have any rashes, pressure so res, or other skin problems?		
6. Have you ever had discomfort, pain, tightness, or pressure in your			33. Have you had a herpes or MRSA skin infection?		
chest during exercise? 7. Does your heart ever race or skip beats (irregular beats) during exercise?			34. Have you ever had a head injury or concussion?		
8. Has a doctor ever told you that you have any heart problems? If so, check all that apply: One of the control of the contr			35. Have you ever had a hit or blow to the head that caused confusion, prolonged headache, or memory problems?		
o High blood pressure o A heart murmur			36. Do you have a history of seizure disorder?	L	
o High cholesterol o A heart infection			37. Do you have headaches with exercise?		
o Kawasaki disease Other:			38. Have you ever had numbness, tingling, or weakness in your arms or legs after being hit or falling?		
Has a doctor ever ordered a test for your heart? (For example, ECG/EKG, echocardiogram)			39. Have you ever been unable to move your arms or legs after being hit or falling?		
10. Do you get lightheaded or feel more short of breath than expected			40. Have you ever become ill while exercising in the heat?		
during exercise?			41. Do you get frequent muscle cramps when exercising?		
11. Have you ever had an unexplained seizure? 12. Do you get more tired or short of breath more quickly than your friends			42. Do you or someone in your family have sickle cell trait or disease?		
during exercise?			43. Have you had any problems with your eyes or vision?		
HEART HEALTH QUESTIONS ABOUT YOUR FAMILY	Yes	Νo	44. Have you had any eye injuries?		
13. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 50 (including			45. Do you wear glasses or contact lenses?		
drowning, unexplained car accident, or sudden infant death syndrome)?			46. Do you wear protective eyewear, such as goggles or a face shield?		
4. Does anyone in your family have hypertrophic cardiomyopathy, Marfan			47. Do you worry about your weight?		
syndrome, arrhythmogenic right ventricular cardiomyopathy, long QT syndrome, short QT syndrome, Brugada syndrome, or catecholaminergic polymorphic ventricular tachycardia?			48. Are you trying to or has anyone recommended that you gain or lose weight?		
15. Does anyone in your family have a heart problem, pacemaker, or			49. Are you on a special diet or do you avoid certain types of foods?	L	
implanted defibrillator? 16. Has anyone in your family had unexplained fainting, unexplained			50. Have you ever had an eating disorder?	╙	
seizures, or near drowning? BONE AND JOINT QUESTIONS	Yes	Νο	51. Do you have any concerns that you would like to discuss with a doctor?	1	
17. Have you ever had an injury to a bone, muscle, ligament, or tendon	103	140	FEMALES ONLY		
that caused you to miss a practice or a game?			52. Have you ever had a menstrual period?	Т	
18. Have you ever had any broken or fractured bones or dislocated joints?			53. How old were you when you had your first menstrual period?	T	
19. Have you ever had an injury that required x-rays, MRI, CT scan, injections,-therapy, a brace, a cast, or crutches?			54. How many periods have you had in the last 12 months?	\top	
20. Have you ever had a stress fracture?			Explain "yes" answers here		
21. Have you ever been told that you have or have you had an x-ray for neck instability or atlanto axial instability? (Down syndrome or dwarfism)					
22. Do you regularly use a brace, orthotics, or other assistive device?					
23. Do you have a bone, muscle, or joint injury that bothers you?					
24. Do any of your joints become painful, swollen, feel warm, or look red?					
25. Do you have any history of juvenile arthritis or connective tissue disease? Thereby state that, to the best of my knowledge, my answers to the a	above (questic	ns are complete and correct.

STUDENT/PARENT CONCUSSION AWARENESS FORM **SCHOOL: DANGERS OF CONCUSSION** Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor "ding" to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death. Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home. COMMON SIGNS AND SYMPTOMS OF CONCUSSION Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness Nausea or vomiting Blurred vision, sensitivity to light and sounds Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments Unexplained changes in behavior and personality Loss of consciousness (NOTE: This does not occur in all concussion episodes.) BY-LAW 2.68: GHSA CONCUSSION POLICY: In accordance with Georgia law and national playing rules published by the National Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include, licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management. a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out. b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance. c) It is mandatory that every coach in each GHSA sport participate in a free, online course on concussion management prepared by the NFHS and available at www.nfhslearn.com at least every two years – beginning with the 2013-2014 school year. d) Each school will be responsible for monitoring the participation of its coaches in the concussion management course, and shall keep a record of those who participate.

I HAVE READ THIS FORM AND I UNDERSTAND THE FACTS PRESENTED IN IT.
